**! This Product Disclosure Statement (PDS) is a summary of significant information and contains a number of references to additional important information which forms part of this PDS. You should consider that information before making a decision about the Fund. The information provided in this PDS is general information only and does not take account of your personal financial situation or needs. You should obtain financial advice tailored to your own personal circumstances.**

Fidante Partners Limited (ABN 94 002 835 592, AFSL 234668) (**Fidante Partners, we, our, us**) is the responsible entity of the Kapstream Absolute Return Income Fund (ARSN 124 152 790) (**Fund**) and the issuer of this PDS. References in this PDS to the Kapstream Absolute Return Income Fund or the Fund are to the wholesale class of units in the Kapstream Absolute Return Income Fund. No other class of units in the Kapstream Absolute Return Income Fund is offered in this PDS. Our ultimate parent is Challenger Limited (ABN 85 106 842 371). We have appointed Kapstream Capital Pty Limited (ABN 19 122 076 117, AFSL 308870) (**Kapstream** or the **investment manager**) as the investment manager of the Fund. The offer or invitation to subscribe for units in the Fund under this PDS is only available to persons receiving this PDS in Australia.

If you are a Direct Investor, all correspondence pertaining to your investment will be issued by us. If you are an mFund Investor, all correspondence pertaining to your investment will be issued by us and your nominated broker with whom you have a broker sponsorship agreement. If you have any queries regarding your investment or if you would like a paper copy of the PDS or the Additional Information booklet, please contact us. The Additional Information booklet provides additional information about the Fund. If you are an Indirect Investor, you should contact your IDPS operator with any query.

The information in this PDS is up-to-date at the time of preparation. However, some information can change from time to time. If a change is considered materially adverse we will issue a replacement PDS. For updated or other information about the Fund (such as performance), please contact your financial adviser, call our Investor Services team or visit our website using the details provided under 'Contact details' on page 8. We will send you a copy of the updated information free of charge upon request.

Kapstream has provided its consent to the statements about it in the form and context in which they are included. Kapstream was not involved in the preparation and distribution of this PDS and is not responsible for the issue of this PDS, nor is it responsible for any particular part of this PDS, other than those parts that refer to it. Kapstream has not withdrawn its consent before the date of this PDS.

## 1. About Fidante Partners

### Fidante Partners – the responsible entity

Fidante Partners forms long-term alliances with talented investment professionals to create, grow and support specialist, boutique funds management businesses.

We are the responsible entity of the Fund. As responsible entity, we issue units in the Fund and are legally responsible to the unitholders of the Fund for its operation.

We have appointed Kapstream as the investment manager of the Fund. We provide back office, marketing, distribution, administration and compliance support services to Kapstream, giving it the freedom to focus on investing and managing the assets of the Fund.

Neither we, nor any of our related entities, nor Kapstream, guarantee the repayment of your capital or the performance of your investment or any particular taxation consequences of investing.

### Kapstream – the investment manager

Kapstream Capital Pty Ltd (**Kapstream**) specialises in managing global fixed income portfolios. As opposed to more conventional styles, Kapstream applies an unconstrained, absolute return approach to investing in fixed income. Kapstream believes that these attributes, combined with a conservative risk focus, enable it to exploit opportunities across the full spectrum of fixed income markets in targeting consistent and positive returns to investors over time.

## 2. How the Kapstream Wholesale Absolute Return Income Fund works

The Fund is a registered managed investment scheme (also known as a managed fund) that is an unlisted Australian unit trust governed by a constitution together with the Corporations Act 2001 and other laws. Managed funds pool individual investors' monies which are then used to purchase assets in line with the Fund's investment objective.

If you decide to invest in the Fund, you will purchase 'units' in the Fund (rather than purchasing the assets directly) which represent a share of the value of the managed fund's collective asset pool. Certain rights are attached to the units and these rights are exercisable by the person who owns these units (referred to as you, Direct Investor, mFund Investor or unitholders throughout this PDS).

For specific information relating to mFund Investors or Indirect Investors, please refer to 'How to apply' on page 7 of this PDS.

The number of units you can purchase will depend on the amount being invested and the investment unit price calculated for the day we receive your valid application form.

### Investing

The minimum initial investment amount is \$10,000 or \$1,000 when a Regular Savings Plan\* is established. For additional investments, the minimum one-off additional investment amount is \$1,000 and the minimum Regular Savings Plan amount is \$100 per month. We can vary or waive the

minimum investment amounts at any time.

You may invest as a Direct Investor, mFund Investor or Indirect Investor. For information on how to make an investment refer to '8. How to apply' on page 7 of this PDS. All individual or joint investors in the Fund must be at least 18 years of age and all new Direct Investors must comply with our Customer Identification Program. Please refer to 'Customer Identification Program' on pages 3 and 4 of the Additional Information booklet available on our website.

The mFund Settlement Service is currently only open to individuals and Self-Managed Super Funds (**SMSFs**).

\* The Regular Savings Plan is not available to investors investing through the mFund Settlement Service. The minimum investment through the mFund Settlement Service is \$10,000.

### Withdrawing

Once invested in the Fund, you can generally withdraw your investment at any time (subject to certain requirements). For information on how to make a withdrawal refer to 'Additional information about withdrawing' on page 4 of the Additional Information booklet.

For Direct Investors and mFund Investors, the minimum withdrawal amount is \$1,000. The number of units you can withdraw will depend on the amount being withdrawn and the withdrawal unit price calculated for the day we receive your withdrawal request. In some circumstances, such as when there is a freeze on withdrawals, you may not be able to withdraw your funds within the usual period upon request. Refer to 'Withdrawal risk' on page 4 of this PDS for more information. Indirect Investors should contact their IDPS operator for withdrawal information.

### Unit prices

As the market value of the assets invested in by the Fund rises and falls, so does the unit price. Unit prices are determined in accordance with the Fund's constitution and are usually calculated each New South Wales business day. We have a Unit Pricing Permitted Discretions Policy which sets out how we will exercise any discretions in relation to the unit pricing. You can request a copy of this policy by calling us.

### Processing

Generally, if your valid investment or withdrawal request is received in our Sydney office before 3.00pm Sydney time on a New South Wales business day (referred to as the transaction cut-off time), it will usually be processed using the unit price determined as at the close of business on that day.

If your valid investment or withdrawal request is received after the transaction cut-off time, or on a non-business day, it will usually be processed using the applicable unit price calculated as at the close of business on the next business day.

We will provide notice if we are to change the transaction cut-off time.

### Frequency of distributions

The Fund generally pays distributions quarterly; however, there may be periods in which no distributions are made, or we may make interim distributions. We do not guarantee any particular level of distribution. Distributions will generally be paid directly to a nominated Australian financial institution or reinvested in additional units in the Fund as soon as

practicable after the end of the Fund's distribution period.

### How distributions are calculated

Distributions you receive will generally represent your share of the distributable income of the Fund and can be made up of both income and net realised capital gains. Your share of any distribution depends on how many units you held at the end of the distribution period as a proportion of the total number of units on issue in the Fund at that time. In certain circumstances, some income and/or net realised capital gains may be held back until the final distribution at the end of June to allow for market volatility.

**You should read the important information about 'Additional information about investing and withdrawing', 'How unit prices are calculated' and 'Distributions' before making a decision. Go to [www.fidante.com.au/KWARIF\\_AIB.pdf](http://www.fidante.com.au/KWARIF_AIB.pdf). The material relating to 'Additional information about investing and withdrawing', 'How unit prices are calculated' and 'Distributions' may change between the time when you read this PDS and the day when you acquire the product.**

## 3. Benefits of investing in the Kapstream Wholesale Absolute Return Income Fund

### Significant features

- Unconstrained approach: Investing wherever the best risk adjusted opportunities can be found irrespective of the benchmark index.
- Conservative risk focus: Priority is given to actively managing the Funds' investment risks within cautious limits.
- Flexibility: Able to meaningfully shift exposure to different geographies, sectors and fixed income categories to meet its return and risk objectives.

Refer to '5. How we invest your money' on pages 4 and 5 of this PDS for more information on the Fund's investments.

### Significant benefits

- Capital stability: Conservatively managed, the Fund is well suited to investors looking for potentially higher levels of returns compared to cash with low to moderate volatility.
- Income stream: Investing predominantly in high quality bonds provides the potential for a stable quarterly income stream.
- Diversification: A flexible, unconstrained approach results in a diversified portfolio that can be complementary to other asset classes.

**You should read the important information about 'Monitoring your investment' and 'How the Fund is governed' before making a decision. Go to [www.fidante.com.au/KWARIF\\_AIB.pdf](http://www.fidante.com.au/KWARIF_AIB.pdf). The material relating to 'Monitoring your investment' and 'How the Fund is governed' may change between the time when you read this PDS and the day when you acquire the product.**

## 4. Risks of managed investment schemes

All investments carry risk. Different strategies carry different levels of risk depending on the assets that make up the strategy. Generally, assets with the potential for the highest long-term returns may also carry the highest level of short-term risk.

When investing in a managed investment scheme, it is important to note that the value of assets in the managed investment scheme and the level of returns will vary. No return is guaranteed. Future returns may differ from past returns and investors may lose some of their money invested. Additionally, laws (including tax laws) that affect registered managed investment schemes may change in the future, which may have an adverse effect on the returns of managed investment schemes.

Your level of acceptable risk will vary compared to other investors' risk appetites and depends on a range of factors such as your age, your investment timeframe, how comfortable you feel about exposing your investment to risk, the nature and size of other investments you hold and the extent to which the Fund fits into your overall financial plan.

The significant risks of investing in the Fund are:

- **Counterparty risk**  
The risk that the other party to a contract (such as a derivative contract, physical security trade or foreign exchange contract) fails to perform its contractual obligations either in whole or in part.
- **Credit risk**  
The risk that the issuer of a fixed interest security is unable or unwilling to make interest and/or capital payments in full and/or on time, or may not meet other financial obligations.
- **Currency risk**  
As some of the securities are not denominated in Australian dollars, the values of such securities will fluctuate due to changes in those currencies relative to the Australian dollar. Kapstream aim to hedge most or all of this exposure back to the Australian dollar. The Fund may also invest directly in foreign currencies.
- **Derivative risk**  
Risks associated with using derivatives may include, but are not limited to, the value of the derivative failing to move in line with that of the underlying asset and the potential illiquidity of the derivative.
- **Fixed income security risk**  
Fixed interest securities are affected by many of the risks outlined in this section such as interest rate risk, credit risk and liquidity risk.
- **Fund risk**  
The risk that changes to the Fund such as termination, changes to fees or changes in government policies (including taxation), regulations and laws that may affect the Fund can have an impact on the potential investment return.
- **Interest rate risk**  
The risk that changes in interest rates may have an adverse impact on the capital value or income of a security.

- **Liquidity risk**

The risk that the securities in which the Fund is invested, or the Fund itself, may become illiquid. This could have a detrimental effect on the value of the investments, or may impact an investor's ability to withdraw from the Fund.

- **Market risk**

The return on a particular security may be influenced by the return of other securities in investment markets (e.g. share markets and bond markets), similar regions or other asset classes.

- **Withdrawal risk**

The risk that we may not meet the generally applicable timeframe for withdrawal requests, may suspend withdrawals or may deem the Fund illiquid.

**You should read the important information about 'Additional information about significant risks' before making a decision. Go to [www.fidante.com.au/KWARIF\\_AIB.pdf](http://www.fidante.com.au/KWARIF_AIB.pdf). The material relating to 'Additional information about significant risks' may change between the time when you read this PDS and the day when you acquire the product.**

## 5. How we invest your money

**When choosing what to invest in, you should consider the likely investment return of the Fund, the risks associated with investing in the Fund and your own personal objectives, risk preference and investment timeframe.**

**Investment return objective**

The Fund aims to provide a steady stream of income and capital stability over the medium term while aiming to outperform its benchmark through market cycles.

**Minimum suggested investment timeframe**

At least three years

**Benchmark**

50% Bloomberg AusBond Composite Bond 0-3 year Index  
50% Bloomberg AusBond Bank Bill Index

**Risk level**

**Low to medium risk** – the Fund has the potential to offer a greater level of capital stability over the medium term in return for potentially lower returns when compared to other investments.

**Description of the Fund**

The Fund is managed by Kapstream who applies an innovative, flexible, and risk averse approach to fixed income portfolio management. The Fund targets an absolute return over time, by investing in a global, diversified portfolio of predominantly investment grade fixed income securities, according to Kapstream's global macroeconomic and market views.

The Fund is intended to be suitable for investors who are seeking potentially higher levels of returns compared to cash and cash-like securities with low to moderate volatility in the unit price. To help you understand the following information relating to the Fund's investments, definitions of the important investment terms are provided on page 12 of the Additional Information booklet.

**Investment approach**

Kapstream draws on information from many sources such as economic roundtables, investment banks, brokers, rating agencies and central banks. Kapstream employs a rigorous evaluation process for individual trades, first confirming that a prospective security meets Kapstream's global macroeconomic view, then incorporating various decision variables such as duration, yield curve, country, sector and volatility which is supported by the investment team's research and analysis.

**Investment universe and portfolio construction**

The investment universe may include, but is not limited to, Government and non-Government bonds, notes, corporate securities, mortgage-backed and asset-backed securities, emerging market debt, convertible securities, derivatives, including swaps, futures, foreign exchange contracts and options, cash and enhanced cash instruments. Kapstream will explore opportunities in both Australian and global markets, potentially investing in securities across the range of global markets and, to a limited extent, emerging market countries.

Derivatives may be used to increase (or decrease) the duration of the Fund by gaining economic exposure to bonds. Please refer to 'How the Fund uses derivatives' on page 11 of the Additional Information booklet for more information. Kapstream does not intend to gear the Fund through the use of derivatives, short selling or borrowing.

**Currency strategy**

Kapstream actively manages the currency exposure of the Fund's investments. Kapstream may hold non- Australian dollar denominated securities which may be fully, partially or not hedged back to the Australian dollar. Kapstream may also invest directly into currencies. Kapstream may hold up to a maximum of 15% of the portfolio in non-Australian dollar currency positions which is comprised of direct investments into currencies and the portion of non-Australian dollar denominated securities which are not hedged back to the Australian dollar.

<b>Strategic asset allocation ranges</b>	<b>Asset class</b>	<b>Min (%)</b>	<b>Max (%)</b>
	Global fixed income securities (including derivatives) <sup>1</sup>	0	100
	Cash <sup>1</sup>	0	100
	1. The global fixed income securities asset allocation includes derivatives and is broken down as follows: Investment grade securities 85-100% Non-investment grade securities 0-15%		
<b>Labour standards or environmental, social or ethical considerations</b>	<p>While Kapstream takes into account environmental and social considerations when buying, retaining or selling underlying investments, it does not have a formal written policy or adhere to any particular set of standards. However, Kapstream is supportive of the United Nations Principles of Responsible Investment framework. Kapstream's primary, short term focus as a fixed income investor is on governance risk and the impact of sudden negative changes to an issuer's capacity to service its debts. Kapstream also recognises that social and environmental factors are clearly important performance drivers over the longer term.</p> <p>Kapstream will consider labour standards and ethical considerations where they are potential meaningful drivers of investment performance. An explanation of Kapstream's process for considering them is detailed further in the Additional Information booklet.</p>		
<b>Changes to investment policy</b>	<p>The constitution of the Fund permits a wide range of investments and gives us, as responsible entity, broad investment powers. We may change the investment manager and/or vary the investment objectives, strategies, benchmarks, asset allocation ranges and processes of the Fund. We will give unitholders written notice of any material variation which we believe they would not have reasonably expected.</p>		

**You should read the important information about 'Additional information about the Fund's investments' before making a decision. Go to [www.fidante.com.au/KWARIF\\_AIB.pdf](http://www.fidante.com.au/KWARIF_AIB.pdf). The material relating to 'Additional information about the Fund's investments' may change between the time when you read this PDS and the day when you acquire the product.**

## 6. Fees and costs

**Consumer advisory warning**

**Did you know?**

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns. For example, total annual fees and costs of 2% of your fund balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

**To find out more**

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (**ASIC**) website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

This table shows fees and other costs that you may be charged in the Fund and can be used to compare costs between different funds. These fees and costs may be deducted from your money, from the returns on your investment or in the case of the Fund, from the Fund assets as a whole.

Type of fee or cost	Amount
<b>Fees when your money moves in or out of the Fund<sup>1</sup></b>	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Exit fee	Nil
<b>Management costs<sup>2,3,4</sup></b>	
The fees and costs for managing your investment	0.70% p.a. of the net asset value of the relevant class.

## Example of annual fees and costs for the Fund

This table gives an example of how fees and costs in the Fund can affect your investment over a one-year period. You should use this table to compare this product with other managed investment products.

Example	Amount	Balance of \$50,000 with a contribution of \$5,000 during the year
Contribution fees	0.00%	For every additional \$5,000 you put in, you will be charged <b>\$0</b> .
Plus Management costs <sup>1,2,3</sup>	0.70%	<b>And</b> , for every \$50,000 you have in the Fund, you will be charged <b>\$350</b> each year.
Equals Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of <b>\$350<sup>4</sup></b>  <b>What it costs you will depend on the investment option you choose and the fees you negotiate with your fund or financial adviser or your broker.</b>

**!** This example assumes that the \$5,000 is made at the end of the year, therefore the management costs associated with this investment are not included in the calculation of management costs above. Please note that this is just an example. In practice, actual investment balances will vary daily and the actual fees and expenses we charge are based on the value of the Fund, which also fluctuates daily.

1. An allowance for transaction costs will apply to investments into, and withdrawals from, the Fund (refer to 'Buy/sell spreads' below).
2. For certain wholesale clients (as defined in the Corporations Act 2001), we may, at our discretion, negotiate, rebate or waive all or part of our fees. Please refer to 'Can fees be different for different investors?' on page 15 of the Additional Information booklet.
3. Unless otherwise stated, all fees and costs are quoted inclusive of any Goods and Services Tax (GST) and net of any input tax credits (ITCs) or reduced input tax credits (RITCs) as applicable. Where available, the prescribed RITC rate is currently 55% or 75%, depending on the nature of the fee or cost incurred. Please refer to 'Government charges and GST' on page 15 of the Additional Information booklet for more information. Due to the impact of GST, ITC and RITC calculations, actual fees may vary slightly from those stated, which may be rounded to two decimal places.
4. Please refer to 'Additional explanation of fees and costs' in this PDS and on pages 14 to 15 of the Additional Information booklet for more information on management costs.

## Additional explanation of fees and costs

### Management costs

Management costs comprise the additional fees or costs that an investor incurs by investing in the Fund rather than investing directly in the underlying assets. These include the management fee, normal operating expenses, abnormal expenses and investment expenses. They do not include transaction costs (i.e. buy/sell spreads) or other costs that an investor would ordinarily incur when investing directly in the underlying assets. Management costs are payable from the Fund's assets and are not paid directly from your investment.

If you are an mFund Investor, additional fees may be payable to your broker. mFund Investors should consider their broker's Financial Services Guide.

### Buy/sell spreads

The buy/sell spread is the difference between the investment unit and the withdrawal unit price and is stated as a percentage of the net asset value of the Fund. The buy/sell spread is not a fee paid to us. It is reflected in the unit price and is an additional cost to you. The current buy/sell spread for the Fund is nil. We may establish a buy/sell spread and vary it from time to time and we will provide notification of any changes on our website.

### Other payments

We may pay fees from our resources to some IDPS operators because they offer the Fund on their investment menus.

**!** Additional fees may be paid to a financial adviser or broker if one is consulted. You should refer to the financial adviser's statement of advice or broker's Financial Services Guide which provides details of the fees payable.

### Can the fees change?

All fees can change. Reasons for this might include changing economic conditions and changes in regulation. We will give unitholders 30 days' written notice of any proposed increase in fees. We cannot charge more than the Fund's constitution allows. If we wish to raise fees above the amount allowed for in the Fund's constitution, we would need the approval of unitholders. We also reserve the right to waive or reduce any of the fees and costs described in this PDS without prior notice.

**You should read the important information about 'Fees and other costs' before making a decision. Go to [www.fidante.com.au/KWARIF\\_AIB.pdf](http://www.fidante.com.au/KWARIF_AIB.pdf). The material relating to 'Fees and other costs' may change between the time when you read this PDS and the day when you acquire the product.**

## 7. How managed investment schemes are taxed

**!** Investing in a registered managed investment scheme is likely to have tax consequences and you are strongly advised to seek professional tax advice.

Investing in a registered managed investment scheme is likely to have tax consequences and you are strongly

advised to seek professional tax advice.

The Fund generally distributes all of its distributable income each year so that the Fund itself is not subject to tax. As an investor you will be assessed for tax on your share of the taxable income generated by the Fund, including any net capital gains. The Fund does not pay tax on behalf of Australian investors. Fidante Partners is not a registered tax (financial) adviser and is not licensed or authorised to provide tax advice. We strongly advise that you obtain your own professional advice regarding your position, as tax and social security laws are complex and subject to change, and investors' individual circumstances vary.

**You should read the important information about 'Taxation considerations' before making a decision. Go to [www.fidante.com.au/KWARIF\\_AIB.pdf](http://www.fidante.com.au/KWARIF_AIB.pdf). The material relating to 'Taxation considerations', may change between the time when you read this PDS and the day when you acquire the product.**

## 8. How to apply

You can invest in the Fund as a Direct Investor, an mFund Investor or an Indirect Investor.

### Direct Investors

The following applies to Direct Investors. To make your initial investment:

- read this PDS and the Additional Information booklet available on our website;
- complete and sign the Kapstream Application Form available on our website;
- complete and sign the relevant Identity Verification Form (depending on what investor type you are) available on our website and include all required customer identity verification documents;
- post all documentation to:  
Fidante Partners Reply Paid 86049 Sydney NSW 2001  
(No stamp required)

### mFund Investors

To make your initial investment through the mFund Settlement Service:

- read this PDS and the Additional Information booklet available on both our website and at [www.mFund.com.au](http://www.mFund.com.au);
- place a 'buy order' for units in the Fund through your nominated broker with whom you have a broker sponsorship agreement; you will have to advise your broker that you agree to use mFund and have read the PDS; and
- your broker will process your order using the mFund Settlement Service. Your payment will come out of your relevant broking account.

Your broker will conduct all relevant anti-money laundering and counter terrorism financing checks.

 **Due to aspects of the Foreign Account Tax Compliance Act (FATCA) regime, for the time being we will only accept applications by individuals and superannuation funds. For further information go to [www.fidante.com.au/KWARIF\\_AIB.pdf](http://www.fidante.com.au/KWARIF_AIB.pdf).**

### Indirect Investors

If you are an Indirect Investor, you must complete the documentation which your IDPS operator requires.

### All investors

Under the Fund's constitution we can accept or reject investments into the Fund at any time and are not required to give any reason or grounds for such a refusal.

To address money laundering and terrorism risks, verification of each investor's identity is a prerequisite for all new investors. If we do not receive all valid documents with your relevant application form or we are unable to verify your identity at any time, we will not be able to commence your investment until we receive the required documents.

### Cooling-off rights

If you are a retail investor as defined in the Corporations Act 2001, you may have a cooling-off right whereby you can change your mind about your investment in the Fund and ask for your money to be repaid. This cooling-off right must be exercised within 14 days from the earlier of:

- when you receive confirmation of your investment; or
- the end of the fifth business day after the day on which your units were issued or sold to you.

Cooling-off rights do not apply to Indirect Investors.

### Complaints

As part of our commitment to providing quality service to our investors, we endeavour to resolve all complaints quickly and fairly. Our policy is to acknowledge any complaint immediately and investigate, properly consider and decide what action (if any) to take and provide a final response to you within 45 days (30 days in relation to privacy complaints). If you have a particular complaint regarding your investment, please do not hesitate to contact us by calling our Investor Services team or writing to us.

Indirect Investors must send all complaints in writing to their IDPS operator.

**You should read the important information about 'How to exercise cooling-off rights' and 'Additional information about making a complaint' before making a decision. Go to [www.fidante.com.au/KWARIF\\_AIB.pdf](http://www.fidante.com.au/KWARIF_AIB.pdf). The material relating to 'How to exercise cooling-off rights' and 'Additional information about making a complaint' may change between the time when you read this PDS and the day when you acquire the product.**

## 9. Additional information

### mFund Settlement Service

mFund is a settlement service developed by the Australian Securities Exchange (ASX). It is an electronic processing system for settling transactions of unlisted managed funds through the Clearing House Electronic Subregister System (CHES) and is designed to replace the traditional paper application process for unlisted managed fund transactions.

### Indirect Investors

Investors accessing the Fund through an IDPS or IDPS-like scheme (known commonly as a master trust or wrap

account) may use, or be given this PDS when deciding to invest in the Fund. These investors are referred to as Indirect Investors.

Indirect Investors do not become unitholders in the Fund nor do they acquire the rights of a unitholder. The operator of the IDPS (IDPS operator) acquires those rights and can exercise or decline to exercise them on behalf of Indirect Investors. Indirect Investors do not receive distributions or reports directly from us, nor do they directly participate in investor meetings or the winding up of the Fund if this were to occur. Indirect Investors should direct all their enquiries and complaints to their financial adviser or the IDPS operator, not to us.

In addition to reading this PDS, Indirect Investors should carefully read the IDPS operator's offer document, which explains the service and the fees payable by the Indirect Investor to the IDPS operator. To invest, Indirect Investors need to complete the documentation which their IDPS operator requires.

## Privacy and personal information

We collect, use and disclose personal information to:

- process your application;
- provide and administer your investment and send you information;
- improve and personalise our products and services;
- conduct product and market research;
- inform you about other products and services that may be useful to you; and
- comply with our obligations under the law, including in respect of anti-money laundering, financial services and taxation laws.

We collect personal information from you and, if relevant, from your nominated broker or financial adviser. We may take steps to verify the information collected. Where you provide us with personal information about someone else (for example, your power of attorney) you must have their consent to provide their personal information to us.

## Disclosing your information

We disclose your information to your financial adviser and/or nominated broker. In addition, we may disclose information we hold about you:

- if you consent to the disclosure;
- if the disclosure is required or authorised by law;
- to organisations acting on our behalf (for example, sending your statements);
- professional service firms that provide services to us such as legal and audit services, or data or information services;
- to related companies; or
- otherwise in accordance with our privacy policy.

We do not disclose personal information to recipients in foreign jurisdictions.

From time to time we or our related companies may contact you to tell you about other products and services that might be useful to you, including financial, superannuation, investment, insurance and funds management products and services. Please contact us (our details below) if you do not want to receive any of this kind of marketing material.

For how you can, correct or update the personal information we hold about you see 'Keeping us informed' on page 7 of the Additional Information booklet. Our privacy policy also contains this information as well as further details about our handling of personal information and about how you can request access to it or lodge a complaint if you believe your personal information has been misused.

You can obtain a copy of our privacy policy at [www.fidante.com.au](http://www.fidante.com.au) or by contacting us.

## Related parties

We may enter into transactions with, and use the services of, any of our related entities. Such arrangements will be based on arm's length commercial terms.

We, or any of our related entities, or any director, officer or employee of any of them may invest in the Fund.
